Kazuo Ishiguro

The Life You Can Save Peter Singer, 2010 Argues that for the first time in history we're in a position to end extreme poverty throughout the world, both because of our unprecedented wealth and advances in technology, therefore we can no longer consider ourselves good people unless we give more to the poor. American Generosity Patricia Snell Herzog, Heather E. Price, 2016-02-01
American charitable giving veers from the hyperbolically generous to the hyperbolically stingy. On some days, no one has a quarter to spare; in times of disaster, Americans will put their lives on hold to build houses for those displaced by hurricanes. The crucial question of who gives and why they do it lies at the heart of American Generosity. Patricia Snell Herzog and Heather E. Price, sociologists who focus on philanthropy, draw on findings from the groundbreaking Science of Generosity initiative, which combines a nationally representative survey of adult Americans with in-depth interviews and case studies. For most Americans, they find, the important forms of giving are: donating money, volunteering time, and taking political action. Focusing on these three types of activity, the authors go on to examine and analyze multiple dimensions of resources, social status, regional cultural norms, different approaches to giving, social-psychological orientation, and the relational contexts of generosity. Herzog and Price conclude that giving is supported by circles of generosity, which ripple outward in their reach to

targets of giving. The book offers not just analysis, but practical tips for readers who want to increase their own giving, for parents modeling giving to their children, spouses desiring alignment in their giving, and friends and community members seeking to support giving by others. The authors also provide explicit fundraising ideas for nonprofits, foundations, and religious leaders. Thought-provoking and accessibly written, *American Generosity* lays out a broad yet nuanced explanation of giving that sheds important new light on a topic that touches all of us in one way or another.

The Voluntourist Ken Budd, 2012-05-08 Ken Budd's *The Voluntourist* is a remarkable memoir about losing your father, accepting your fate, and finding your destiny by volunteering around the world for numerous worthy causes: Hurricane Katrina disaster relief in New Orleans, helping special needs children in China, studying climate change in Ecuador, lending a hand—and a heart—at a Palestinian refugee camp in the Middle East, to name but a few. Ken's emotional journey is as inspiring and affecting as those chronicled in *Little Princes* and *Three Cups of Tea*. At once a true story of powerful family bonds, of sacrifice, of self-discovery, *The Voluntourist* is an all-too-human, real-life hero whom you will not soon forget.

Toxic Charity Robert D. Lupton, 2012-10-02 Public service is a way of life for Americans; giving is a part of our national character. But compassionate instincts and generous spirits aren’t enough, says veteran urban activist Robert D. Lupton. In this groundbreaking guide, he reveals the disturbing truth about charity: all too much of it has become toxic, devastating to the very people it’s meant to help. In his four decades of urban ministry, Lupton has experienced firsthand how our good intentions can have unintended, dire consequences. Our free food and clothing distribution encourages ever-growing handout lines, diminishing the dignity of the poor while increasing their dependency. We converge on inner-city neighborhoods to plant flowers and pick up trash, battering the pride of residents who have the capacity (and responsibility) to beautify their own environment. We fly off on mission trips to poverty-stricken villages, hearts full of pity and suitcases bulging

with giveaways—trips that one Nicaraguan leader describes as effective only in “turning my people into beggars.” In *Toxic Charity*, Lupton urges individuals, churches, and organizations to step away from these spontaneous, often destructive acts of compassion toward thoughtful paths to community development. He delivers proven strategies for moving from toxic charity to transformative charity. Proposing a powerful “Oath for Compassionate Service” and spotlighting real-life examples of people serving not just with their hearts but with proven strategies and tested tactics, Lupton offers all the tools and inspiration we need to develop healthy, community-driven programs that produce deep, measurable, and lasting change. Everyone who volunteers or donates to charity needs to wrestle with this book.

Money Makes the World Go Around Barbara Garson, 2002 Part detective story and part anti-globalism manifesto, this primer on today's dizzying world economy is an eye-opening gallop through the international marketplace of

money, fueled by "honest, useful outrage" (San Francisco Chronicle.) Barbara Garson begins simply by depositing a modest sum in a one-branch bank. With a second sum, she buys shares in an aggressive mutual fund. From these points of departure, she tracks her money's every stop as it races around the globe. Along the way she talks to people who touch and are used by her money. From downsized steelworkers in Tennessee to shrimp farmers in Malaysia, from the men building an oil refinery in Thailand to the migrant workers and street vendors who work on the project. Few of the people Garson meets think a lot about the abstract flow of capital, but by the time the tour is over, the real mechanisms of corporate globalization have become clear. This is urgent reading for all who are committed to making a better world.

Where Did the Money Go? Ellen Rohr,1999

Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money–the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of To Sell Is Human: The Surprising Truth About Motivating Others). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home–is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does–and how that affects every aspect of life. He examines the

three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Nonprofit Fundraising Hacks Salvador Briggman, 2020-05-04 This book will help to level the playing field, so that you can compete with some of the bigger organizations out there in the nonprofit industry. You'll discover science-backed ways to get more funding for your nonprofit. These are breakthrough marketing strategies that are easy to implement and just plain work. They are psychological tricks that you can use to raise more money from your existing donors (or new ones). I have to be honest with you though. Having been an online marketer for eight years, I've come into contact with these principles many times. In fact, I'd go so far as to say that most successful nonprofits and established companies use these tactics. It's because they're proven to work to raise more funds. However, they aren't introduced to the millions of nonprofits throughout the world. You have to operate in the dark and you're left wondering how to make ends meet at the end of the month. That's not fair! Mark my words, some of them will boggle your mind. When you begin to act on the advice, you'll start to see results that not only affect your bottom line, but also give you the power to help more people. At the end of the day, that's all that matters, isn't it? The people you're helping. The way you're impacting the world for the positive. This fundraising guff isn't all that fun or exciting. What's more, you spend

so much of your time doing it. That's why I wanted to put together a paint by numbers formula for handling this area of your operations, once and for all. Once you harness this linchpin skill, you won't ever have to worry about how you'll pay next month's bills. Instead of struggling to stay afloat, you'll have a rock-solid fundraising plan in place, and be able to live an empowered life. If you're fed up with seeing the big-boys cash in on fundraising, and annoyed that there isn't better training out there for nonprofit leaders, like you, then this is the book for you. I want to bring some of these effective for-profit marketing techniques to the nonprofit world so that you can impact more people at a fraction of the cost. As you know, that's the name of the game. The more you know, the easier it will be for you to navigate this changing terrain.

Follow Your Money Kevin Sylvester, Michael Hlinka, 2013 Examines how cost is determined in goods, what happens to money once it is used to buy something, and the basics of credit.

Giving 2.0 Laura Arrillaga-Andreessen, 2011-09-23 Gold Medal Winner; Philanthropy, Charities, and Nonprofits; 2012 Axiom Business Book Awards Giving 2.0 is the ultimate resource for anyone navigating the seemingly infinite ways one can give. The future of philanthropy is far more than just writing a check, and Giving 2.0 shows how individuals of every age and income level can harness the power of technology, collaboration, innovation, advocacy, and social entrepreneurship to take their giving to the next level

and beyond. Major gifts may dominate headlines, but the majority of giving still comes from individual households—ordinary people with extraordinary generosity. Even in 2009, at a time of deep recession, individual giving averaged almost \$2,000 per household and drove 82% of the \$300 billion donated that same year. Based on her vast experience as a philanthropist, academic, volunteer, and social innovator, Arrillaga-Andreessen shares the most effective techniques she herself pilots and studies and a vast portfolio of lessons learned during her lifetime of giving. Featuring dozens of stories on innovative and powerful methods of how individuals give time, money, and expertise—whether volunteering and fundraising, leveraging technology and social media, starting a giving circle, fund, foundation, or advocacy group, or aspiring to create greater social impact—Giving 2.0 shows readers how they can renew, improve, and expand their giving and reach their fullest potential. A practical, entertaining, and inspiring call to action, Giving 2.0 is an indispensable tool for anyone passionate about creating change in our world.

United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15,

2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.
