The Guidebook To Securing High Profile Internships Dalvin Josias Sejour,2019-09-16 There are thousands of books out there that talk about how to

climb the corporate ladder and hundreds more that talk about ways to make it to the top. However, there are little to none that talk about the ins and outs of starting a career such as navigating uncertainty, securing internships, networking, battling with imposter syndrome, pivoting careers entirely and many other gems that get lost in exaggerated stories on people far removed from you. This book is not fiction or click-bait. It is a real story about my life and how I got started off in my career, while literally starting from scratch with no industry connections. By making a plan, taking a few leaps of faith, trying something new, and being my authentic self, I was able to go from stocking shelves at a local grocery store to securing 7 internships in my field both in the US and abroad doing what I love the most. As CEO of Dalvin Digital Design and a full-time Software Engineer, I, Dalvin Sejour will go through a step-by-step guide to replicate my early career success through my riveting, real and informational narrative. After graduating from high school, it seems like the world has an unrealistic expectation that you need to have everything figured out by the time you throw your cap in the air at graduation. Whether you are deciding to go to college, went straight into the workforce, graduated, or have started work and looking to pivot careers this easy-to-follow guide through my lenses has something to offer you.
