Energiewende: Germany’s Energy Transition and its Implications for the U.S.

A discussion on Germany’s energy transition with Hermann Ott, Member of the German Parliament

Friday, May 3, 12:30 – 2:00 pm
JHU Homewood Campus, Olin Hall Auditorium

Dr. Hermann Ott is a Member of the German Federal Parliament and the Green Party speaker on climate policy. Before his political career, he worked as a scientist, policy advisor and author at the Wuppertal Institute for Climate, Environment and Energy, where he was the Director of the Climate Program and later head of the Institute’s Berlin office. Dr. Ott studied law and politics and wrote his Ph.D. dissertation on “Environmental Regimes in International law.”

A light lunch will be provided.
