The book covers Branwyn's coming of age in a commune, his involvement in the 90s zine publishing scene, his tenure at influential cyber arts and culture mags *Mondo 2000*, *BOING BOING*, *Wired*, and his eight years at *MAKE*, spearheading the growing maker movement. Previously published material is woven throughout with Branwyn's unabashedly honest commentary, personal anecdotes, and original essays. Read about the smart-druggies behind *Mondo 2000*, impersonating Billy Idol in cyberspace (for Billy Idol), the making of the iconic early 90s hypermedia book, *Beyond Cyberpunk!*, and Branwyn going positively Phillip K. Dick after a heart attack and a bad blood transfusion. *Borg Like Me* is a smart, passionate, intense trip along the bleeding edges of art, technology, and culture at the turn of the 21st century.

**The Water Footprint Assessment Manual** Maite M. Aldaya, Ashok K. Chapagain, Arjen Y. Hoekstra, Mesfin M. Mekonnen, 2012-08-21 People use lots of water for drinking, cooking and washing, but significantly more for producing things such as food, paper and cotton clothes. The water footprint is an indicator of water use that looks at both direct and indirect water use of a consumer or producer. Indirect use refers to the 'virtual water' embedded in tradable goods and commodities, such as cereals, sugar or cotton. The water footprint of an individual, community or business is defined as the total volume of freshwater that is used to produce the goods and services consumed by the individual or community or produced by the business. This book offers a complete and up-to-date overview of the global standard on water footprint assessment as developed by the Water Footprint Network. More specifically it:

- o Provides a comprehensive set of methods for water footprint assessment
- o Shows how water footprints can be calculated for individual processes and products, as well as for consumers, nations and businesses
- o Contains detailed worked examples of how to calculate green, blue and grey water footprints
- o Describes how to assess the sustainability of the aggregated water footprint within a river basin or the water footprint of a specific product
- o Includes an extensive library of possible measures that can contribute to water footprint reduction

**Recommendations on the Transport of Dangerous Goods** United Nations, 2020-01-06 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of

Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the Recommendations on the Transport of Dangerous Goods in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled Manual of Tests and Criteria.
