

# An Introduction To International Law

**Shirley V. Scott**

*A Short Introduction to International Law* Emmanuelle Tourme Jouannet, 2014-11-13 In our globalised world the sources and actors of international law are many and its growth prolific and disorderly. International law governs the actions of states on matters as long-established as diplomatic immunity or as recent as the War on Terror, and it now impacts upon the lives of ordinary citizens in areas as diverse as banking and investment, public health and the protection of the environment. In this accessible introduction Emmanuelle Tourme Jouannet explains the latest developments in international law in the light of its history and culture, presenting it as an instrument both for dominance and for change that adjusts and balances the three pillars of the United Nations Charter: the prohibition of the use of force; economic, social and sustainable development; and human rights.

**An Introduction to Public International Law** Cecily Rose, Niels Blokker, Daniëlla Dam-de Jong, Simone van den Driest, Robert Heinsch, Erik Koppe, Nico Schrijver, 2022-03-03 Provides an accessible, balanced, and nuanced introduction to public international law, with examples of how the law applies in practice.

*Akehurst's Modern Introduction to International Law* Peter Malanczuk, 2002-04-12 First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

*An Introduction to Contemporary International Law* Lung-chu Chen, 2015 Applies the New Haven School approach explaining discrete aspects of the global decision process and their effects on the content of international legal rules. Provides an in-depth treatment of the key features of the New Haven School of international law. References both classic historical examples and contemporary events to illustrate international legal processes and principles. Focuses on important trends in international law, including the movement from a state-centered system to a people-centered one. Contributes to the growth of a world community of human dignity through international law. -- Publishers website.

*An Introduction to International Law* Joseph Gabriel Starke, 1963

**An Introduction to the International Law of Armed Conflicts** Robert Kolb, Richard Hyde, 2008-09-17 This book provides a modern and basic introduction to a branch of international law constantly gaining in importance in international life, namely international humanitarian law (the law of armed conflict). It is constructed in a way suitable for self-study. The subject-matters are discussed in self-contained chapters, allowing each to be studied independently of the others. Among the

subject-matters discussed are, inter alia: the Relationship between jus ad bellum / jus in bello; Historical Evolution of IHL; Basic Principles and Sources of IHL; Martens Clause; International and Non-International Armed Conflicts; Material, Spatial, Personal and Temporal Scope of Application of IHL; Special Agreements under IHL; Role of the ICRC; Targeting; Objects Specifically Protected against Attack; Prohibited Weapons; Perfidy; Reprisals; Assistance of the Wounded and Sick; Definition of Combatants; Protection of Prisoners of War; Protection of Civilians; Occupied Territories; Protective Emblems; Sea Warfare; Neutrality; Implementation of IHL.

**An Introduction to International Organizations Law** Jan Klabbers, 2022-03-10 Provides a framework for understanding how organizations are set up and the logic behind international organizations law.

Akehurst's Modern Introduction to International Law Peter Malanczuk, 2002-04-12 First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

**Introduction to International Law** Marek St. Korowicz, 2013-06-29 This book in its entirety as well as in each of its parts is an outline of the problems under discussion. The subject matter of some eighty sections of the book is extensive; it could, indeed, be presented by experts in as many volumes. This study offers an attempt to formulate a synthesis, however difficult, of the vast amount of available material. Unlike the well-known standard Introductions to International Law which deal with all the major fields of international law, this book treats exclusively the present conceptions of that law as expressed in legal literature, international treaties and other agreements, international judgements and awards, governmental and diplomatic statements and the like. Special attention is devoted, in several chapters of the book, to the teachings of the most highly qualified publicists of the various nations which are considered by Article 38 paragraph 1 (d) of the Statute of the International Court of Justice as subsidiary means for the determination of rules of law. An endeavor is made to ascertain whether in certain fields of the theory of international law a *Communis opinio doctorum* has either been reached or is in the process of achievement. Some readers may consider that there are too many quotations from writings of publicists; others will certainly feel - as does this writer - that too many outstanding international lawyers have not been included.

**International Law** Wade Mansell, Karen Openshaw, 2019-08-22 This new edition provides a critical introduction to the concepts, principles and rules of international law through a consideration of contemporary international events. It examines both the possibilities and limitations of the legal method in resolving international disputes, and notes the actual effects of international law upon international disagreements. Such an approach remains sceptical rather than cynical, and is intended to provide the means by which the role of international law may be evaluated. This entails discussion of the legal quality of international law; the relationship between international law and international relations; the 'Eurocentricity' of international law; and the connection between political power and the ability to use or abuse (or ignore) international law. The new edition

explores the impact of the United States' latest direction in foreign policy (arguably an intensification of pre-existing neo-conservative trends); considers in greater depth the issue of economic self-determination in relation to ex-colonial nations; expands the discussion of jurisdiction to cover immunity from jurisdiction; and covers recent developments at the International Criminal Court. Underlying the book is the assertion that international law is political in content (in the sense of being concerned with the exercise of power) but that it draws much of its effectiveness from its self-portrayal as being apolitical, or at least politically neutral.

A critical introduction to international law Olivier Corten, François Dubuisson, Vaios Koutroulis, 2024-10-09 Is international law universal? Can it be anything else than the will of the actors who are able to impose on others their values and interests? Beyond the strategic objectives that can be pursued – by a lawyer pleading before a court, a state representative operating in an international organization or addressing the general public, an author seeking recognition, or a citizen interested in the law – since international law cannot be interpreted objectively, can it at least be interpreted in a convincing and well-argued way? These are the questions that underlie this book, which, following a critical approach, emphasizes the profound ambivalence of international law. International law appears to be torn between, in the one hand, the pursuit of a universalist ideal of justice and peace, and, on the other, the need to deal with power relations in a political context. From this perspective, it would be futile to claim to establish – and even less to discover – one single 'correct' interpretation of legal rules such as, for example, the right to self-determination, the principle of non-intervention or the prohibition of genocide. It is however possible to provide an overview of the main debates among states, other international actors or among legal scholars relating to the interpretation of the main rules of international law. In the book, these debates are illustrated by references to popular culture, in particular, music and films. The ambition of this book is to enable the reader, on the basis of these elements, firstly to position himself or herself by selecting and defending the arguments that seem most convincing and secondly, and more fundamentally, to understand the legal and political terms of the controversies in international law. This revised second edition includes updates in case law and practice, from the war in Ukraine to the war in Gaza, as well as legal developments related to climate change.

An Introduction to International Institutional Law Jan Klabbers, 2009-05-14 International institutions are powerful players on the world stage, and every student of international law requires a clear understanding of the forces that shape them. For example, with increasing global influence comes the need for internal control and accountability. This thought-provoking overview considers these and other forces that govern international institutions such as the UN, EU and WTO, and the complex relationship that exists between international organizations and their member states. Covering recent scholarly developments, such as the rise of constitutionalism and global administrative law, and analysing the impact of important cases, such as the ICJ's Genocide case (2007) and the Behrami judgment of the European Court of Human Rights (2007), its

clarity of explanation and analytical approach allow students to understand and think critically about a complex subject.

Business Law I Essentials MIRANDE. DE ASSIS VALBRUNE (RENEE. CARDELL, SUZANNE.), Renee de Assis, Suzanne Cardell, 2019-09-27 A less-expensive grayscale paperback version is available. Search for ISBN 9781680923018. Business Law I Essentials is a brief introductory textbook designed to meet the scope and sequence requirements of courses on Business Law or the Legal Environment of Business. The concepts are presented in a streamlined manner, and cover the key concepts necessary to establish a strong foundation in the subject. The textbook follows a traditional approach to the study of business law. Each chapter contains learning objectives, explanatory narrative and concepts, references for further reading, and end-of-chapter questions. Business Law I Essentials may need to be supplemented with additional content, cases, or related materials, and is offered as a foundational resource that focuses on the baseline concepts, issues, and approaches.

*International Law: A Very Short Introduction* Vaughan Lowe, 2015-11-26 Interest in international law has increased greatly over the past decade, largely because of its central place in discussions such as the Iraq War and Guantanamo, the World Trade Organisation, the anti-capitalist movement, the Kyoto Convention on climate change, and the apparent failure of the international system to deal with the situations in Palestine and Darfur, and the plights of refugees and illegal immigrants around the world. This Very Short Introduction explains what international law is, what its role in international society is, and how it operates. Vaughan Lowe examines what international law can and cannot do and what it is and what it isn't doing to make the world a better place. Focussing on the problems the world faces, Lowe uses terrorism, environmental change, poverty, and international violence to demonstrate the theories and practice of international law, and how the principles can be used for international co-operation.

### **Introduction to International Law** Joseph Gabriel Starke, 1984

*Law Among Nations* Gerhard von Glahn, James Larry Taulbee, 2015-07-14 Offering a more accessible alternative to casebooks and historical commentaries, Law Among Nations explains issues of international law by tracing the field's development and stressing key principles and processes. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. Renowned for its rigorous approach and clear explanations, Law Among Nations remains the gold standard for undergraduate introductions to international law. Learning Goals Trace the development of International Law through key principles and processes. Illustrate important issues and theories using excerpts from landmark cases.

Textbook on International Law Martin Dixon, 2007-07-19 The sixth edition of Textbook on International Law offers a concise and focused introduction to the essential topics of international law. Dixon guides students through legal principles and areas of controversy, bringing the subject to life with the use of topical examples to illustrate key concepts. The book incorporates helpful features including a glossary, chapter summaries and suggestions for further reading. The sixth edition

includes further discussion of topical issues such as Guantanamo, the International Criminal Court and the use of force. Purchase of the book provides complementary access Oxford's Online Resource Center website providing updates on case law and legislative developments, as well as annotated links to relevant websites.

**The Cambridge Companion to International Law** James Crawford, Martti Koskenniemi, 2012-01-26 This intellectually rigorous introduction to international law encourages readers to engage with multiple aspects of the topic: as 'law' directing and shaping its subjects; as a technique for governing the world of states and beyond statehood; and as a framework within which several critical and constructivist projects are articulated. The articles situate international law in its historical and ideological context and examine core concepts such as sovereignty, jurisdiction and the state. Attention is also given to its operation within international institutions and in dispute settlement, and a separate section is devoted to international law's 'projects': protecting human rights, eradicating poverty, the conservation of resources, the regulation of international trade and investment and the establishment of international order. The diverse group of contributors draws from disciplinary orientations ranging from positivism to postmodernism to ensure that this book is informed theoretically and politically, as well as grounded in practice.

International Law in World Politics Shirley V. Scott, 2010 The second edition of International Law in World Politics--thoroughly updated and now including a full chapter on the use of force--introduces the concepts, the rules, and the functioning of international law in a way that is accessible to students of political science. Shirley Scott covers such core topics as the nature of legal argument, the negotiation and implementation of multilateral treaties, and the place of both intergovernmental organizations and nonstate actors in the international legal system. Equally important, she connects the content of laws to current issues and problems, using case studies to bring the subject to life. The result is a rare text that effectively explains the role that international law plays in the changing arena of world politics.

Brierly's Law of Nations Andrew Clapham, 2012-08-09 This concise book is an introduction to the role of international law in international relations. Written for lawyers and non-lawyers alike, the book first appeared in 1928 and attracted a wide readership. This new edition builds on Brierly's scholarship and his idea that law must serve a social purpose. Previous editions of The Law of Nations have been the standard introduction to international law for decades, and are widely popular in many different countries due to the simplicity and brevity of the prose style. Providing a comprehensive overview of international law, this new version of the classic book retains the original qualities and is again essential reading for all those interested in learning what role the law plays in international affairs. The reader will find chapters on traditional and contemporary topics such as: the basis of international obligation, the role of the UN and the International Criminal Court, the emergence of new states, the acquisition of territory, the principles covering national jurisdiction and immunities, the law of treaties, the different ways of settling international disputes, and the rules on resort to force and the prohibition of

aggression.

## An Introduction To International Law Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to

search for specific titles or browse through different categories. Another reliable platform for downloading An Introduction To International Law free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to

downloading An Introduction To International Law free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading An Introduction To International Law free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of

the source before downloading An Introduction To International Law. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading An Introduction To International Law any PDF files. With these platforms, the world of PDF downloads is just a click away.

### **FAQs About An Introduction To International Law Books**

**What is an Introduction To International Law PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of

a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a An Introduction To International Law PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a An Introduction To International Law PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a An Introduction To International Law PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert

PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a An Introduction To International Law PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or

various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
