Deidre Helen Crumbley

Celestial Church of Christ Afeosemime Unuose Adogame,1999 One of the most popular, widespread indigenous religious initiative in West Africa is the Celestial Church of Christ. This study examines the incipience, contemporary growth and development of the church, especially the period following the demise of the founder.

The Constitution of the Church of the First Born Which Is Written in Heaven Arch-Preacher John Wesley Ellis I,2011-11-02 The constitutionality of this document is set forth to be an irrevocable statutory element of proven Christian laws for this perpetually established church until such changes be deemed necessary at the time of the reign of Jesus Christ of Nazareth. Because of the satanic pollution of so many things being made for bodily pleasures to cause Elohim to be grieved and not honored, we therefore will make these defined statutory laws and bylaws for the souls of men, women, and children to be implemented into Christian law to coincide fully with the will of Elohim.

African Instituted Churches Rufus Okikiolaolu Olubiyi Ositelu,2002 One of the striking features of the changed demography of world Christianity has been the emergence and growth of the African Instituted Churches (AICs). This book is therefore provided for those who desire to study the African initiatives in Christianity. The book is intended to serve as a valuable material to teachers and students of African Instituted Churches. The customs, culture and traditions of the African or any other peoples of the world are to serve as beautiful compliments to the Christian faith and belief, and not diametrically opposed to it.

Uniquely African? Religions of the World [6 volumes] J. Gordon Melton,Martin Baumann,2010-09-21 This masterful six-volume encyclopedia provides comprehensive, global coverage of religion, emphasizing larger religious communities without neglecting the world's smaller religious outposts. Religions of the World, Second Edition: A Comprehensive Encyclopedia of Beliefs and Practices is an extraordinary work, bringing together the scholarship of some 225 experts from around the globe. The encyclopedia's six volumes offer entries on every country of the world, with particular emphasis on the larger nations, as well as Indonesia and the Latin American countries that are traditionally given little attention in English-language reference works. Entries include profiles on religion in the world's smallest countries (the Vatican and San Marino), profiles on religion in recently established or disputed countries (Kosovo and Nagorno-Karabakh), as well as profiles on religion in some of the world's most remote places (Antarctica and Easter Island). Religions of the World is unique in that it is based in religion on the ground, tracing the development of each of the 16 major world religious traditions through its institutional expressions in the modern world, its major geographical sites, and its major celebrations. Unlike other works, the encyclopedia also covers the world of religious unbelief as expressed in atheism, humanism, and other traditions.

Spirit, Structure, and Flesh Deidre Helen Crumbley,2008-12-10 Although popularized in Africa by Western missionaries, the Christian faith as practiced by Africans has acquired unique traits over time. Some of the most radical reinterpretations of Christianity are offered by those churches known as “AICs” (variously, African Initiated, African Instituted, or African Independent Churches)—new denominations founded by Africans skeptical of dogma offered by mainstream churches with roots in European empires. As these churches spread throughout the African diaspora, they have brought with them distinct practices relating to gender. Such practices range from the expectation that women avoid holy objects and sites during menstruation to the maintenance of church structures in which both men and women may be ordained and assigned the same duties and responsibilities. How does having a female body affect one’s experience of indigenized Christianity in Africa? Spirit, Structure, and Flesh addresses this question by exploring the ways ritual, symbol, and dogma circumscribe, constrain, and liberate women in AICs. Through detailed description of worship and doctrine, as well as careful analyses of church history and organizational processes, Deidre Helen Crumbley explores gendered experiences of faith and power in three Nigerian indigenous AICs, demonstrating the roles of women in the day-to-day life of these churches.

Christianity in Africa and the African Diaspora Roswith Gerloff,Afe Adogame,Klaus Hock,2011-05-12 An exploration of the rapid development of African Christianity, offering an analysis and interpretation of its movements and issues.

Theorizing Religions Past Harvey Whitehouse,Luther H. Martin,2004 A collection of archaeologists and historians examine the modes of religiosity theory for its usefulness in explaining the origins and history of religions.
