Listening, Community Engagement, and Peacebuilding Graham D. Bodie, Debra L. Worthington, Zenebe Beyene, 2023-06-01 This book explores the role of listening in community engagement and peacebuilding efforts, bridging academic research in communication and practical applications for individual and social change. For all their differences, community engagement and peacebuilding efforts share much in common: the need to establish and agree on achievable and measurable goals, the importance of trust, and the need for conflict management, to name but a few. This book presents listening – considered as a multi-disciplinary concept related to but distinct from civility, civic participation, and other social processes – as a primary mechanism for accomplishing these tasks. Individual chapters explore these themes in an array of international contexts, examining topics such as conflict resolution, restorative justice, environmental justice, migrants and refugees, and trauma-informed peacebuilding. The book includes contemporary literature reviews and theoretical insights covering the role of listening as related to individual, social, and governmental efforts to better engage communities and build, maintain, or establish peace in an increasingly divided world. This collection provides invaluable insight to researchers, students, educators, and practitioners in intercultural and international communication, conflict management, peacebuilding, community engagement, and international studies.

You're Not Listening Kate Murphy, 2020-01-07 When was the last time you listened to someone, or someone really listened to you? If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified

than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor. - Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** An essential book for our times. -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening.
