Firearm Safety Certificate - Manual for California Firearms Dealers and DOJ Certified Instructors California Department of Justice,2016-12 The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Guns, Democracy, and the Insurrectionist Idea Joshua Horwitz, Casey Anderson, 2009-04-29 *Guns, Democracy, and the Insurrectionist Idea* recasts the gun debate by showing its importance to the future of democracy and the modern

regulatory state. Until now, gun rights advocates had effectively co-opted the language of liberty and democracy and made it their own. This book is an important first step in demonstrating how reasonable gun control is essential to the survival of democracy and ordered liberty. ---Saul Cornell, Ohio State University When gun enthusiasts talk about constitutional liberties guaranteed by the Second Amendment, they are referring to freedom in a general sense, but they also have something more specific in mind---freedom from government oppression. They argue that the only way to keep federal authority in check is to arm individual citizens who can, if necessary, defend themselves from an aggressive government. In the past decade, this view of the proper relationship between government and individual rights and the insistence on a role for private violence in a democracy has been co-opted by the conservative movement. As a result, it has spread beyond extreme militia groups to influence state and national policy. In *Guns, Democracy, and the Insurrectionist Idea*, Joshua Horwitz and Casey Anderson set the record straight. They challenge the proposition that more guns equal more freedom and expose Insurrectionism as a true threat to freedom in the United States today. Joshua Horwitz received a law degree from George Washington University and is currently a visiting scholar at the Johns Hopkins Bloomberg School of Public Health. Casey Anderson holds a law degree from Georgetown University and is currently a lawyer in private practice in Washington, D.C.
