The Christmas Cat Melody Carlson,2014-09-09 After years abroad, Garrison Brown returns home to Vancouver to build a new life. When his beloved grandmother passes away a few weeks before Christmas, Garrison goes to her house to sort out her belongings, including six cats who need new homes. While Garrison hopes to dispense with the task quickly, his grandmother's instructions don't allow for speed. She has left Garrison with some challenging requirements for the future homes of her furry friends--plus a sizeable monetary gift for the new owners. Garrison's job is to match the cats with the right owners without disclosing the surprise gift. Along the way, he may just meet someone who can make him stay. Humorous and heartwarming, this latest Christmas story from bestselling

author Melody Carlson is the perfect gift for pet lovers and anyone in whose heart Christmas holds a special place.

Transforming the Workforce for Children Birth Through Age 8 National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on the Science of Children Birth to Age 8: Deepening and Broadening the Foundation for Success, 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early

years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development,

and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.
