Jawaharlal Nehru

**Letters for a Nation** Jawaharlal Nehru,2015-10-25 In October 1947, two months after he became independent India's first prime minister, Jawaharlal Nehru wrote the first of his fortnightly letters to the heads of the country's provincial governments—a tradition he kept until a few months before his death. This carefully selected collection covers a range of themes and subjects, including citizenship, war and peace, law and order, governance and corruption, and India's place in the world. The letters also cover momentous world events and the many crises the country faced during the first sixteen years after Independence. Visionary, wise and reflective, these letters are of great contemporary relevance for the guidance they provide for our current problems and predicaments.

*Affective Health and Masculinities in South Africa* Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
