Threads Ami Polonsky, 2016-11-04 Don't miss Ami Polonsky's stunning new novel, *World Made of Glass* To Whom It May Concern: Please, we need help! The day twelve-year-old Clara finds a desperate note in a purse in Bellman's department store, she is still reeling from the death of her adopted sister, Lola. By that day, thirteen-year-old Yuming has lost hope that the note she stashed in the purse will ever be found. She may be stuck sewing in the pale pink factory outside of Beijing forever. Clara grows more and more convinced that she was meant to find Yuming's note. Lola would have wanted her to do something about it. But how can Clara talk her parents, who are also in mourning, into going on a trip to China? Finally the time comes when Yuming weighs the options, measures the risk, and attempts a daring escape. The lives of two girls -- one American, and one Chinese -- intersect like two soaring kites in this story about loss, hope, and recovery.

Tangled Threads Pegi Deitz Shea, 2003-09-22 For the Hmong people living in overcrowded refugee camps in Thailand, America is a dream: the land of peace and plenty. In 1995, ten years after their arrival at the camp, thirteen-year-old Mai Yang and her grandmother are about to experience that dream. In America, they will be reunited with their only remaining relatives, Mai's uncle and his family. They will discover the privileges of their new life: medical care, abundant food, and an apartment all their own. But Mai will also feel the pressures of life as a teenager. Her cousins, now known as Heather and Lisa, try to help Mai look less like a refugee, but following them means disobeying Grandma and Uncle. From showers and smoke alarms to shopping, dating, and her family's new religion, Mai finds life in America complicated and confusing. Ultimately, she will have to reconcile the old ways with the new, and decide for herself the kind of woman she wants to be. This archetypal immigrant story introduces readers to the fascinating Hmong culture and offers a unique outsider's perspective on our own.

Common Threads Sharon Kallis, 2014-11-01 A guide to creating community-based art installations using green waste, invasive species and natural materials Disposing of unwanted natural materials can be expensive and time-consuming, or it can present a tremendous opportunity for creating collaborative eco-art. Invasive-species control, green-waste management, urban gardening, and traditional crafts can all be brought together to strengthen community relationships and foster responsible land stewardship. Simple, easily taught, creative techniques applied with shared purpose become the modern-

day equivalent of a barn raising or a quilting bee. Common Threads is a unique guide to engaging community members in communal handwork for the greater good. Sharon Kallis provides a wealth of ideas for: Working with unwanted natural materials, with an emphasis on green waste and invasive species Visualizing projects that celebrate the human element while crafting works of art or environmental remediation Creating opportunities for individuals to connect with nature in a unique, meditative, yet community-oriented way Combining detailed, step-by-step instructions with tips for successful process and an overview of completed projects, Common Threads is a different kind of weaving book. This inspirational guide is designed to help artists and activists foster community, build empowerment, and develop a do-it-together attitude while planning and implementing works of collaborative eco-art. Sharon Kallis is a Vancouver artist who specializes in working with unwanted natural materials. Involving community in connecting traditional hand techniques with invasive species and garden waste, she creates site-specific installations that become ecological interventions. Her recent projects include The Urban Weaver Project, Aberthau: flax=food+fibre, and working closely with fiber artists, park ecologists, First Nations basket weavers, and others.

Threads Jane L. Collins, 2009-11-15 Americans have been shocked by media reports of the dismal working conditions in factories that make clothing for U.S. companies. But while well intentioned, many of these reports about child labor and sweatshop practices rely on stereotypes of how Third World factories operate, ignoring the complex economic dynamics driving the global apparel industry. To dispel these misunderstandings, Jane L. Collins visited two very different apparel firms and their factories in the United States and Mexico. Moving from corporate headquarters to factory floors, her study traces the diverse ties that link First and Third World workers and managers, producers and consumers. Collins examines how the transnational economics of the apparel industry allow firms to relocate or subcontract their work anywhere in the world, making it much harder for garment workers in the United States or any other country to demand fair pay and humane working conditions. Putting a human face on globalization, Threads shows not only how international trade affects local communities but also how workers can organize in this new environment to more effectively demand better treatment from their distant corporate employers.

Liberated Threads Tanisha C. Ford, 2015-09-14 From the civil rights and Black Power era of the 1960s through antiapartheid activism in the 1980s and beyond, black women have used their clothing, hair, and style not simply as a fashion statement but as a powerful tool of resistance. Whether using stiletto heels as weapons to protect against police attacks or incorporating African-themed designs into everyday wear, these fashion-forward women celebrated their identities and pushed for equality. In this thought-provoking book, Tanisha C. Ford explores how and why black women in places as far-flung as New York City, Atlanta, London, and Johannesburg incorporated style and beauty culture into their activism. Focusing on the emergence of the soul style movement—represented in clothing, jewelry, hairstyles, and more—Liberated

Threads shows that black women's fashion choices became galvanizing symbols of gender and political liberation. Drawing from an eclectic archive, Ford offers a new way of studying how black style and Soul Power moved beyond national boundaries, sparking a global fashion phenomenon. Following celebrities, models, college students, and everyday women as they moved through fashion boutiques, beauty salons, and record stores, Ford narrates the fascinating intertwining histories of Black Freedom and fashion.

Sequins, Secrets, and Silver Linings Sophia Bennett, 2012-02-01 Three trendy British BFFs help a brilliant Ugandan girl in this heartfelt fashion fairy tale! Once upon a time in London town, there were three fab birds: Nonie's a freak for fashion. Eco-conscious Edie blogs to save the world--and to get into Harvard. And starter-starlet Jenny just finished filming a small part in a BIG Hollywood blockbuster opposite a drool-worthy boy. But when these trendy Brit besties meet Crow, a refugee girl who happens to be an amazing designer, their worldview gets an extreme makeover. As they learn about the serious situation in Crow's homeland, the three friends decide to mix-and-match their talents to call attention to the crisis of Uganda's Night Walking children. Fashion and compassion: C'est tres chic! Now Nonie's just got to lace up her (always a classic) Converse kicks, put on her (vintage Dior pillbox) thinking cap, and somehow make it work! A fierce, sweet, boldface fashion fairy tale!

Threads Kate Evans,2018-11-13 A heartbreaking, full-color graphic novel of the refugee drama In the French port town of Calais, famous for its historic lace industry, a city within a city arose. This new town, known as the Jungle, was home to thousands of refugees, mainly from the Middle East and Africa, all hoping, somehow, to get to the UK. Into this squalid shantytown of shipping containers and tents, full of rats and trash and devoid of toilets and safety, the artist Kate Evans brought a sketchbook and an open mind. Combining the techniques of eyewitness reportage with the medium of comic-book storytelling, Evans has produced this unforgettable book, filled with poignant images—by turns shocking, infuriating, wry, and heartbreaking. Accompanying the story of Kate’s time spent among the refugees—the insights acquired and the lives recounted—is the harsh counterpoint of prejudice and scapegoating arising from the political right. Threads addresses one of the most pressing issues of modern times to make a compelling case, through intimate evidence, for the compassionate treatment of refugees and the free movement of peoples. Evans’s creativity and passion as an artist, activist, and mother shine through.

Only the Longest Threads Tasneem Zehra Husain,2014-10-29 Part fiction, part overview of 'Aha!' moments in the forward march of physics, *Only the Longest Threads* takes readers dramatically through scientific fields such as quantum field theory, electromagnetism, relativity, quantum mechanics, and string theory. Each idea or concept is explored in an inventive chapter, each told from a different first-person narrator; the faux emails, letters, and diary entries take place from 1728 to the present day.—Boing Boing, *The Best Books for Nerds* from 2014 Science is done by real human beings, with human concerns. *Only the Longest Threads* tells a story that conveys the human side of science in a way that is as moving as it is accurate.—Sean Carroll, theoretical physicist at Caltech and author of *The Particle at the End of the Universe* *Only the Longest Threads* will thrill readers with its dramatic and lucid accounts of the great breakthroughs in the history of physics—classical mechanics, electromagnetism, relativity, quantum mechanics, quantum field theory, and string theory, each from the viewpoint of a (fictional) witness to the events. Tasneem Zehra Husain re-imagines the pivotal moments in the history of physics when radical new theories shifted our perception of the universe, and our place in it. Husain immerses the reader in the immediacy and excitement of the discoveries—and she guides us as we begin to understand the underlying science and to grasp the revolutionary step forward each of these milestones represents. Tasneem Zehra Husain writes lyrically, poetically about life, love, and physics. I highly recommend this wonderful book for anyone interested in what

physics, and indeed all of science, is about. She masterfully describes the most momentous moments in physics history with verve and talent.—Amir D. Aczel, bestselling author of *Fermat's Last Theorem* A delightful meditation on the development of modern physics, culminating in the discovery of the Higgs. Husain follows the thread of its creation through a dialog between a journalist and young theory student, and as seen through the eyes of witnesses.—John Huth, Donner Professor of Science, Harvard University Well-written and cleverly constructed, this book takes us on a journey through the history of physics as a series of fictional adventures, loosely linked by another fiction, the storytellers' emails to each other. Some books are praised because 'I couldn't put it down,' but this one merits a deeper reading, one that stops, muses on, and savors each story before going on to the next. Each one captures not only the emergence of a significant idea in physics, but also something of the characters, culture, and times surrounding that development. So take your time, pause to ponder, but persevere, you will be well rewarded!—Helen R. Quinn, Physicist, Science Educator, and co-author of *The Mystery of the Missing Antimatter*, Professor Emeritus SLAC National Accelerator Laboratory How do theoretical physicists think? Tasneem Zehra Husain knows. She knows their purpose, feels their passions, articulates their frustrations, shares their triumphs. Through the device of fiction Only the Longest Threads communicates the history of physical thought—its roots in inquisitiveness and essential disinterest in outcome—with greater clarity than any popular science text.—Michael Duff FRS, Abdus Salam Professor of Theoretical Physics, Imperial College London An artfully constructed journey through space and time.—Freddy Cachazo, Perimeter Institute for Theoretical Physics Husain skillfully weaves a poetic tapestry.—Joseph Mazur, author of *Enlightening Symbols*

Threads Primer Bil Lewis, Daniel J. Berg, 1996 Providing an overview of the Solaris and POSIX multithreading architectures, this book explains threads at a level that is completely accessible to programmers and system architects with no previous knowledge of threads. It covers the business and technical benefits of threaded programs, along with discussions of third party software that is threaded, pointing out the benefits. It also describes the design of the Solaris MT API, with references to distinctions in POSIX, contains a set of example programs which illustrate the usage of the Solaris and POSIX APIs, and explains the use of programming tools: Thread Analyzer, LockLint, LoopTool and Debugger.

Book of Lost Threads Tess Evans, 2011-04-01 In the small town of Opportunity, four mismatched people discover the unexpected power of kindness.

Threads Joseph Abboud, Ellen Stern, 2009-03-17 Designers are great white sharks, and we roam the waters ourselves. We often pretend to like and admire each other, but sometimes we don't even bother to fake it. The fashion industry is as hardworking, incestuous, and political as any other, and it's virtually impossible, given the size of designers' egos, to sincerely wish someone else well, because behind every false tribute is 'It should have been me.' So writes Joseph Abboud,

who fell in love with style at five. There in the dark of the movie house, he wasn't just some Lebanese kid with a babysitter. He was the hero, in tweeds and pocket squares. That's where he learned that clothes represented a better life—a life he wanted, and would grab, for himself. From his blue-collar childhood in Boston's South End to his spread-collar success as one of America's top designers, he has forged a remarkable path through the unglamorous business of making people look glamorous. He transformed American menswear by replacing the traditional stiff-shouldered silhouette with a grown-up European sensuality. He was the first designer to win the coveted CFDA award as Best Menswear Designer two years in a row and the first designer to throw out the opening pitch at Fenway Park. He's been jilted by Naomi Campbell (who didn't show up on the runway for his first women's fashion show) and questioned by the FBI (who did show up in his office right after September 11 because he fit the profile). He's soared and sunk more than a few times—and lived to tell the tales. *Threads* is his off-the-record take on fashion, from the inside out. With breezy irreverence, he looks at guys and taste, divas and deviousness, fabric and texture, and all those ties. He takes us to the luxe bastion of Louis Boston, where he came of age and learned the trade, and to the seductive domain of Polo Ralph Lauren, where he became associate director of menswear design. He reveals the mystique of department-store politics, what's what at the sample sale, and who copies whom. He explains the process of making great clothes, from conception and sketch to manufacturing and marketing. Whether he's traveling by daredevil horse, plunging plane, Paris Métro, or cross-country limo, Abboud is an illuminating guide to a complex world.
