*Indiana Notary Public Guide* Indiana Secretary of State, 2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially

documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

**No Forms. No Spam. No Cold Calls** Latané Conant,2020-07-15 No Forms. No Spam. No Cold Calls. is a rallying cry for a new generation of sales and marketing leaders who are ready to ditch the traditional strategies, tactics, and technologies that are no longer working to deliver breakthrough results. Every organization wants to predictably grow revenue. The challenge facing sellers and marketers today is that B2B buyers have taken control of the buying journey, making it nearly impossible for business leaders to accurately predict anything, especially revenue growth. Prospects are being bombarded from all sides with forms, emails, and annoying phone calls as they try to research our solutions. So what do they do? They protect themselves by researching anonymously and not revealing themselves to us until their decision is made. That means that as sellers and marketers, we've lost our opportunity to influence the buying journey—that is, if we're still clinging to the

traditional lead-based tools and strategies that we're used to. It's time for a new paradigm. Pioneering CMO Latané Conant delivers a step-by-step guide that will transform the way you think about marketing and selling in the modern age. Often challenging but never dull, *No Forms. No Spam. No Cold Calls.* delivers uncomfortable truths about the status quo-starting with Latané's first breakthrough that our old-school tactics not only treat our future customers like dirt, they also encourage the anonymous buying we're trying to combat. This book challenges sales and marketing leaders to engage customers the right way if you want to achieve predictable revenue growth. Latané lays out exactly how to enable your sales and marketing teams to take pride in the customer experience and finally align on how to put your prospects at the center of everything you do. In doing that, you'll learn to uncover customer demand, prioritize which accounts to work, engage the entire customer buying team, and measure real success. With this customer-first approach, you'll be able to confidently take down the forms, stop sending bulk emails, and quit making cold calls-and achieve breakthrough results.
