Research Anthology on Collaboration, Digital Services, and Resource Management for the Sustainability of Libraries Management Association, Information Resources, 2021-01-15 Faced with increased budget cuts, libraries must continue to advance their services through new technologies and practices in order to keep pace with the rapid changes society is currently facing. The once traditional in-person services offered can no longer be the only option, and to keep themselves afloat, libraries must offer more in terms of digital services. The convenience of offering mobile and digital services brings a new wave of accessibility to libraries and a new question on just how much libraries will need to change to meet the newfound needs of its patrons. Beyond offering these digital services, libraries are incorporating other types of technology in multifaceted ways such as utilizing artificial intelligence practices, social media, and big data management. Moreover, libraries are increasingly looking for ways to partner and collaborate with the community, faculty, students, and other libraries in order to keep abreast of the best practices and needs of their users. The *Research Anthology on Collaboration, Digital Services, and Resource Management for the Sustainability of Libraries* explores emerging strategies and technologies that are redefining the role of the library within communities and academia. This reference book covers extensive ground on all the ways libraries have shifted to manage their resources, digitalize their services, and market themselves within the new technological revolution. These continued shifts for libraries come with benefits, challenges, and future projections that are critical for discussion as libraries continue to strive to remain updated and relevant in times of change. This book is ideal for librarians, archivists, collection managers, IT specialists, electronic resource librarians, practitioners, stakeholders, researchers, academicians, and students who are interested in the current state of libraries and how they are transforming to fit modern needs.

Theological Libraries and Library Associations in Europe, 2022-08-15 During the past 50 years, theological libraries have confronted secularisation and religious pluralism, along with revolutionary technological developments that brought not only significant challenges but also unexpected opportunities to adopt new instruments for the transfer of knowledge through the automation and computerisation of libraries. This book shows how European theological libraries tackled these challenges; how they survived by redefining their task, by participating in the renewal of scholarly librarianship, and by networking internationally. Since 1972, BETH, the Association of European Theological Libraries, has stimulated this process by enabling contacts among a growing number of national library associations all over Europe.

Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation Virginia Small, 2021-09-24 Drawing on a wealth of academic research, statistics and interviews with key Australian media people including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society, and unfolds how the ABC has strayed from its respected public charter which endowed the ABC with a distinctive and important role in informing, educating and entertaining the Australian public. Successive federal government

funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation (the ABC) and analyses the reasons for its demise within an organisational theoretical framework. The book is written for an educated general audience, with academics and media practitioners specifically in mind, and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding, budgets, management and organisational strategies and evolution.

Isaac Orobio Carsten Wilke,2018-11-05 The series Studies and Texts in Scepticism contains monographs, translations, and collected essays exploring scepticism in its dual manifestation as a purely philosophical tradition and as a set of sceptical strategies, concepts, and attitudes in the cultural field - especially in religions, perhaps most notably in Judaism. In such cultural contexts scepticism manifests as a critical attitude towards different dimensions and systems of secular or revealed knowledge and towards religious and political authorities. It is not merely an intellectual or theoretical worldview, but a critical form of life that expresses itself in such diverse phenomena as religion, literature, and society. Further book series of the Maimonides Centre for Advanced Studies are Jewish Thought, Philosophy, and Religion and the Yearbook of the Maimonides Centre for Advances Studies.

The New Art Museum Library Amelia Nelson,Traci E. Timmons,2021-04-13 The New Art Museum Library addresses the issues facing today's art

museum libraries through a series of scholarly essays written by top librarians in the field. In 2007, the publication, *Art Museum Libraries and Librarianship*, edited by Joan Benedetti, was the first to solely focus on the field of art museum librarianship. In the decade since then, many changes have occurred in the field--both technological and ideological--prompting the need for a follow-up publication. In addition to representing current thinking and practice, this new publication also addresses the need to clearly articulate and define the art museum library's value within its institution. It documents the broad changes in the environment that art museum libraries now function within and to celebrate the many innovative initiatives that are flourishing in this new landscape. Librarians working in art museum face unique challenges as museums redefine what object-based, visitor-centric learning looks like in the 21st century. These unique challenges mean that art museum libraries are developing new strategies and initiatives so that they can continue to thrive in this environment. The unique nature of these initiatives mean that they will be useful to librarians working in a wide range of special libraries, as well as more broadly in academic and public libraries. The *New Art Museum Library* is uniquely positioned to present new strategies and initiatives including digital art history initiatives, the new norms in art museum library staffing, and the public programming priorities that are core to many art museum libraries today. This book is an endorsed project of ARLIS/NA.

A New Jane Austen Juliette Wells, 2023-10-05 Completing Juliette Wells' groundbreaking trio of books on Austen's readers, this latest volume revolutionizes our understanding of how Austen came to be viewed as the world's greatest novelist. Wells shows that Austen's global reputation was established not by British scholars, as is commonly believed, but by visionary American writers and collectors, working largely outside academia. Drawing on extensive research, Wells weaves together colorful, compelling case studies of men and women who, from the 1880s to the 1980s, helped readers appreciate Austen's novels, persuasively advocated for her place in the literary canon, and preserved artifacts vital to her legacy. Engagingly written and abundantly illustrated, *A New Jane Austen* will inform and delight scholars and Austen fans alike.

The Catalpa Rescue Peter FitzSimons, 2019-04-23 The incredible true story of one of the most extraordinary and inspirational prison breaks in Australian history. New York, 1874. Members of the Clan-na-Gael - agitators for Irish freedom from the English yoke - hatch a daring plan to free six Irish political prisoners from the most remote prison in the British Empire, Fremantle Prison in Western Australia. Under the guise of a whale hunt, Captain Anthony sets sail on the *Catalpa* to rescue the men from the stone walls of this hell on Earth known to the inmates as a 'living tomb'. What follows is one of history's most stirring sagas that splices Irish, American, British and Australian history together in its climactic moment. For Ireland, who had suffered English occupation for 700 years, a successful escape was an inspirational call to arms. For America, it was a chance to slap back at Britain for their support of the South in the Civil War; for England, a humiliation. And for a young Australia, still not sure if it was Great Britain in the South Seas or worthy of being an independent country in its own right, it was proof that Great Britain was not unbeatable. Told with FitzSimons' trademark combination of arresting history and storytelling verve, *The Catalpa Rescue* is a tale of courage and cunning, the fight for independence and the triumph of good men, against all odds.

The Age-old Struggle Jack Hepworth, 2021 This is a wide-ranging analysis of the internal dynamics of Irish republicanism between the outbreak of 'the Troubles' in 1969 and the Good Friday Agreement of 1998. Engaging a vast array of hitherto unused primary sources alongside original and re-used oral history interviews, 'The Age-Old Struggle' draws upon the words and writings of more than 250 Irish republicans. This book scrutinises the movement's historical and contemporary complexity, the variety of influences within Irish republicanism, and divergent republican responses at pivotal moments in the conflict. Yet it also assesses the centripetal forces which connected republican organisations through decades of struggle. Across five thematic chapters, 'The Age-Old Struggle' offers new insights into republicanism's multi-layered interactions with the global '68, tactical and strategic change, revolutionary socialism, feminism, and religion. Drawing on political periodicals, ephemera, and interviews with activists throughout the ranks of several republican groups, the book roots its analysis in republicanism's temporal and spatial complexity. It contends that the cultural significance of place, interactions with class and revolutionary politics, and shifting intra-movement networks are essential to understanding the movement's dynamics since 1969.

The United States is currently facing an unprecedented challenge in ensuring that all citizens live in a fair, inclusive, and opportunity-rich society.
