L. D. Black

Nocturnal Wilder Poetry, 2019-05-07 From @wilderpoetry comes a heavily expanded revised edition of Nocturnal, a collection of poetry and beautifully illustrated black-and-white imagery inspired by darkened days and sleepless nights. Poetry meets presentation in each of the four sections (Dusk, Northern Lights, Howl, Lucid Dreams,), which trace the author's continuing journey of self-discovery while illuminating a path for others along the way. Ink stains, landscapes, dreamlike animals, blackened pages, and textured spreads create a multifaceted reading experience. And true to the moniker, these poems are linked by a motif of the wild. Celebrating the art of self-love poetry with both word and image, Nocturnal will leave readers comforted, curious, and inspired to explore the world around them.

Nocturnal Scott Sigler, 2012-04-12 Scott Sigler is the voice in modern horror - and NOCTURNAL will make certain that you never look at cities the same way again. For centuries, their race has lived beneath the earth, emerging only at night, to feed quietly on the dregs of society and slip back into the shadows. But now their time has come - their time to rise up from their hiding places and take back what is theirs. San Francisco homicide detective Bryan Klauser is supposed to be hunting a serial killer. But a serial killer couldn't be responsible for the seemingly impossible DNA evidence the crime-scene techs keep finding - or for the gory, strangely prophetic dreams Bryan keeps having. And what about the connections he keeps finding to a century-old cult - and his superiors' sudden reluctance to give him the answers he needs about cases that should be dead and buried? Ultimately, Klauser's investigations will reveal a race of killers who've long lurked beneath San Francisco's streets - and are preparing to take back the city. Klauser is the only man who can stop them, because . . . he might not be a man at all.

Tony and Susan Austin McGiffert Wright, 2015 Fifteen years ago, Susan Morrow left her first husband Edward Sheffield, an unpublished writer. Now, she's enduring middle class suburbia as a doctor's wife, when out of the blue she receives a package containing the manuscript of her ex-husband's first novel. He writes asking her to read the book; she was always his best critic, he says. As Susan reads, she is drawn into the fictional life of Tony Hastings, a math professor driving his family to their summer house in Maine. And as we read with her, we too become lost in Sheffield's thriller. As the Hastings' ordinary, civilized lives are disastrously, violently sent off course, Susan is plunged back into the past, forced to confront the darkness that inhabits her, and driven to name the fear that gnaws at her future and will change her life.

But nothing prepares her for being locked away--naked--with a sexy ex-cop. . . after they've been pumped full of drugs that increase their sexual appetites to animalistic intensity. . . Crystal Dreams by Kate Douglas When Lemurian Guard Darius chases a demon spirit to Earth, he faces a lethal battle between good and evil. His ally is Mari, a breathtakingly beautiful human who unknowingly holds the key to victory. But before the war is over, Darius's desire for his mortal companion threatens to erupt--and could cost Mari her life. . . Spark of Temptation by Jess Haines Blackmailed into taking a treacherous case, P.I. Sara Halloway is thrust into a demon war. The Nocturnal Brain Dr. Guy Leschziner, 2019-07-23 A renowned neurologist shares the true stories of people unable to get a good night's rest in *The Nocturnal Brain: Nightmares, Neuroscience, and the Secret World of Sleep*, a fascinating exploration of the symptoms and syndromes behind sleep disorders. For Dr. Guy Leschziner's patients, there is no rest for the weary in mind and body. Insomnia, narcolepsy, night terrors, apnea, and sleepwalking are just a sampling of conditions afflicting sufferers who cannot sleep—and their experiences in trying are the stuff of nightmares. Demonic hallucinations frighten people into paralysis. Restless legs rock both the sleepless and their sleeping partners with unpredictable and uncontrollable kicking. Out-of-sync circadian rhythms confuse the natural body clock's days and nights. Then there are the extreme cases. A woman in a state of deep sleep who gets dressed, unlocks her car, and drives for several miles before returning to bed. The man who has spent decades cleaning out kitchens while "sleep-eating." The teenager prone to the serious, yet unfortunately nicknamed Sleeping Beauty Syndrome stuck in a cycle of excessive unconsciousness, binge eating, and uncharacteristic displays of aggression and hypersexuality while awake. With compassionate stories of his patients and their conditions, Dr. Leschziner illustrates the neuroscience behind our sleeping minds, revealing the many biological and psychological factors necessary in getting the rest that will not only maintain our physical and mental health, but improve our cognitive abilities and overall happiness.

The Nocturnal City Robert Shaw, 2018-02-02 Night is a foundational element of human and animal life on earth, but its interaction with the social world has undergone significant transformations during the era of globalization. As the economic activity of the 'daytime' city has advanced into the night, other uses of the night as a time for play, for sleep or for escaping oppression have come increasingly under threat. This book looks at the relationship between night and society in

contemporary cities. It identifies that while theories of 'planetary urbanization' have traced the spatial spread of urban forms, the temporal expansion of urban capitalism has been less well mapped. It argues that, as a key part of planetary being, understanding what goes on at night in cities can add nuance to debates on planetary urbanization. A series of practices and spaces that we encounter in the night-time city are explored. These include: the maintenance and repair of infrastructure; the aesthetics of the urban night; nightlife and the night-time economy; the home at night; and the ecologies of the urban night. Taking these forward the book will ask whether the night can reveal some of the boundaries to what we call 'the urban' in a world of cities, and will call for a revitalized and enhanced 'nightology' to study these limits.
